Public Welcome

Drawing on the growing body of research and evidence relating to the 9/11 attacks and his unparalleled skill as a critical thinker, Professor Griffin argues that the *9/11 Commission Report* amounts to a cover-up by government officials and says that the available evidence suggests that the Bush administration was complicit in the 9/11 attacks. Professor Griffin covers topics he says have been inadequately answered by the commission. These include questions surrounding the attack on the Pentagon, the way in which the World Trade Center towers collapsed, the behavior of President Bush and his Secret Service detail following notification that the WTC had been hit, and the utter failure of the U.S. military to mount an effective defense against the attacks.

The film is based on a talk by Professor Griffin hosted by the Muslim-Jewish-Christian Alliance for 9/11 Truth (www.mujca.com) at the University of Wisconsin in Madison last year. Includes Q&A.

David Ray Griffin, professor emeritus at the Claremont School of Theology, has authored or edited over two dozen books, including "The New Pearl Harbor: Disturbing Questions About the Bush Administration and 9/11" and "The 9/11 Commission: Omissions and Distortions."
