## *the War on Our Civil Liberties*

by Robert Greenwald

*Unconstitutional: The War on Our Civil Liberties* shows Americans the extent to which our freedoms have been trampled upon by our government since 9/11. The video reveals the real story behind the Patriot Act and the gut wrenching stories behind those affected—from law-abiding store clerks to United States Olympians unable to travel. By focusing on the personal stories of real people, *Unconstitutional* examines how paranoia, fear and racial profiling have led to gross infringements on freedom and democracy without strengthening national security.
