

Ann Wright to speak on recent missions in Gaza and Jeju Island, Korea

Well-known and outspoken Ann Wright, citizen activist with plenty of experience standing up for peace, human rights, rights of military war resisters and other veterans, other government whistle-blowers and environmental and social justice, will speak and give updates about her recent experiences on the 2011 Gaza Freedom Flotilla's US boat "The Audacity of Hope" which attempted to carry support letters to the people of Gaza and also talk about her recent trip to Korea's Jeju Island where citizens are working hard to prevent their designated "Island of Peace," called "Korea's Hawaii," from being used for a proposed Naval base.

Ann's presentation is aimed to inspire and activate us. Come hear and talk together about these issues.
