

It's got to stop! We've got to stop it!

The slow motion train wreck that is the occupation of Iraq grows more nightmarish by the day. In 2006 the American people voted to bring it to an end. But the political process is moving glacially at best. We must force the media and the politicians to recognize just how angry and how massive anti-war sentiment in this country has grown.

It's time for the Iraq Moratorium.

The Iraq Moratorium will be an escalating, monthly expression of determination to end the war. Commencing Friday, September 21st and continuing the Third Friday of every month thereafter, we will encourage people to **make a break with business as usual.**

On the Third Friday of each month please:

- * Wear & distribute black ribbons & armbands**
- * Don't Buy Gas**
- * Pressure politicians and the media**
- * Vigils, pickets, rallies, teach-ins**
- * Special religious services**
- * Coordinated Events: music, art, culture**
- * Film showings, talks, educational events**
- * Student actions: Teach-ins, school closings**

For more info or to find out what's going on in your area, please go to:
